REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1954, any article of the following named classes of published works deposited for copyright between January 1, 1950, and January 1, 1951, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$1.00 per issue, \$2.00 per year.

PREFACE

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Each annual volume is subdivided to represent the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, together with a brief listing of the materials principally contained in each part, the symbols used to distinguish the materials, and the prices of semi-annual issues and of the annual subscription to the complete *Catalog*.

Each copyright registration listed in the *Catalog* is recorded in a main entry, which includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, the copyright date, the copyright registration number, etc.). Cross-references, and, in some cases, indexes, are provided.

The name of the copyright claimant in each entry is that given in the application for registration. Available information in the records of the Copyright Office relating to subsequent changes of ownership can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in the law for the conduct of a search of the records.

In the case of each registration listed, except for

renewals; the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of Title 17 of the *United States Code*, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) of the regulations of the Copyright Office, published in the Code of Federal Regulations, 1949 Edition, which provides for the deposit of identifying reproductions in lieu of the work itself. To distinguish foreign works, for which two copies have been deposited under section 215 of Title 17 of the *United States Code*, a zero immediately following the class symbol in the registration number has been used.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the *Register of Copyrights*.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

HOW TO USE THE CATALOG OF COPYRIGHT ENTRIES, PARTS 7-11A

Works of Art, Reproductions of Works of Art, Scientific and Technical Drawings, Photographic Works, Prints, and Pictorial Illustrations (Parts 7-11A) list, in the first section, domestic and foreign works, in published or unpublished form, currently registered in classes G, H, I, J, and K, except for commercial prints and labels which are registered in Class K under the symbol KK and are listed in Part 11B. The second section is a list of renewal copyrights of works originally registered in the above classes, except for commercial prints and labels. The works listed include original paintings, drawings, designs for works of art; three-dimensional works of art; charts; architectural and engineering plans and mechanical drawings; anatomical models and other plastic works; photographic prints; filmstrips; slide films; stereoscopic and other transparencies; published reproductions of existing works of art in the same or a different medium; and published prints and pictorial illustrations, including picture postcards, greeting cards, cartoons, and prints used for calendars, posters, etc. In the third section are listed selected books in the fields of art and photography which were registered in Class A, and also listed in Part 1A, *Books*. These consist largely or primarily of illustrations, list or describe photographs or works of art (including those devoted to the works of individual artists and photographers), or are catalogs of exhibitions. Library of Congress printed cards are available for them. Orders for or inquiries regarding the cards should be addressed to the Card Division of the Library of Congress, Washington 25, D. C. Each registration is described in a main entry and cross-references are provided to facilitate its location. The items of information generally included in a main entry and the arrangement of the entries are described in the following paragraphs.

In each section the arrangement of the entries is alphabetical under the names or titles at the beginning of the main entries. In the first two sections, cross reference entries beginning with other names or titles for which a searcher might look are inter-

filed with the main entries; in each case, the cross-reference refers the searcher to the name or title under which the main entry can be found. There are no cross references in the third section. Each main entry is usually listed under the name of the person or corporate body principally responsible for the content of the work (author, artist, draftsman, photographer, etc., or the name of the employer in the case of a work made for hire), but for some works, such as filmstrips, the item is listed under the title. In the first section the cross-references cover, in general, joint authors, claimants, and other essential names included in the main entries, distinctive titles, and the names of prominent scenes and events, cities and other geographic areas given in the titles; for filmstrips they cover the names of the authors and the titles of published literary works upon which the filmstrips are based or with which they are correlated. In some instances, also, cross-references are given for the releasing agents when different from the producer. In the second section, the cross-references cover renewal claimants, joint authors, and titles. In both sections references are made from variant forms of the names used in the headings.

Each main entry for works currently registered, other than filmstrips, includes, in addition to the name or title used as the heading, the following information descriptive of the work, when available and applicable:

- 1) Title.
- 2) Names of other persons associated with the creation of the work.
- 3) Description of the pictorial content of the work.
- 4) Imprint, consisting of the place of publication, the name of the publisher, and date of publication, when the publisher and place of publication are given on the copy.
- 5) A brief description of the physical nature of the work.
- 6) Series title.

- 7) Names of authors given in the application which do not appear elsewhere in the entry.
- 8) Information contained in the application or copy which relates to the registration of an earlier version of the work.

For currently registered filmstrips, the main entry includes, in addition to the heading, the following information if available and applicable:

- 1) Production statement.
- 2) Year date of release.
- 3) Physical description, including number of frames, width of film, etc.
- 4) Series title.
- 5) Author and title of the published literary work upon which the film is based or with which it is correlated.
- 6) A brief summary of the content of the film-strip.

In addition items 7 and 8 in the previous paragraph are given when applicable.

Information relating specifically to the claim of copyright is preceded by the copyright symbol © and includes the following:

- 1) A brief statement of the new matter on which copyright is claimed when this information is given in the application.
- 2) Name of the claimant.
- 3) For published works, date of publication as given in the application; for unpublished works, the day, month, and year on which the last of all the items required to complete registration (i. e., each of the follow-

ing: copy, application, and fee) was received in the Copyright Office.

- 4) The phrase, "photo dep.," when photographs of three-dimensional works of art are accepted in lieu of copies.
- 5) Registration number.

An explanatory note is added to the main entry whenever it is necessary to indicate a variation in information which relates to the publication date or the name of the claimant as given in the application and the copy of the work.

For renewal copyrights, the main entry includes, in addition to the heading, the following information, if applicable:

- 1) Title.
- 2) Description of the pictorial content of the work, or, for filmstrips, the number of the frames and the name of the author, usually the producing company.

The information relating specifically to the copyright claim is preceded by the copyright symbol © and includes the following information:

- 1) Original copyright date.
- 2) Original copyright registration number.
- 3) Renewal registration number.
- 4) Date of receipt of the renewal application.
- 5) Name of the renewal claimant, followed by an abbreviation in parentheses representing the claimant's statement of the basis of his renewal claim—e. g., John Doe (NK) indicates that renewal of copyright has been claimed by John Doe as the next of kin of the deceased author.

ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	—author	p.	—page, pages
a.k.a.	—also known as	(PCB)	—proprietor of a work copyrighted by a corporate body otherwise than as assignee or licensee of the author
appl.	—application		
©	—copyright symbol		
(C)	—child or children of the deceased author	(PCW)	—proprietor of the composite work
ca.	—circa	(PPW)	—proprietor of the posthumous work
col.	—colored	pseud.	—pseudonym
comp.	—compiler	pub.	—published, publishing
d.b.a.	—doing business as	(PWH)	—proprietor of copyright in a work made for hire
(E)	—executor(s) of the author	rev.	—revised, revised by, revision
ed.	—edited by, editor, edition	t.a.	—trading as
H.	—height	tr.	—translator
l.	—leaf, leaves	v., vol.	—volume, volumes
L.	—length	(W)	—widow
mm.	—millimeters	(Wr)	—widower of the author
(NK)	—next of kin of the author who is not living, there being no will		

COPYRIGHT REGISTRATIONS FOR WORKS OF ART, REPRODUCTIONS OF WORKS OF ART, SCIENTIFIC AND TECHNICAL DRAWINGS, PHOTOGRAPHIC WORKS, PRINTS AND PICTORIAL ILLUSTRATIONS

January–June 1953

Unpublished photographs	237
Class K—Prints and pictorial illustrations	1,865
Total	5,096
Renewals: Class G	13
Class I	2
Class J	3
Class K	35
Total	53

The above figures represent the number of registrations for works of art, reproductions of works of art, scientific and technical drawings, photographic works, prints and pictorial illustrations for January–June 1953, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

WORKS OF ART, REPRODUCTIONS, SCIENTIFIC AND TECHNICAL DRAWINGS, PHOTOGRAPHIC WORKS, PRINTS

An alphabetical list of art works, scientific and technical drawings, photographic works, and prints and pictorial works registered during the period covered by this catalog, arranged under author (artist, draftsman, photographer, etc., or employer in case of a work made for hire) or, in the case of filmstrips, under title. Cross-references from names of copyright claimants, joint authors, distinctive titles, persons, prominent scenes and events, cities and other specific geographic areas are interfiled with main entries.

Popular Science Pub. Co., 1953.
45 fr., color, 35 mm. Ansco color.
Summary: Presents a historical re-
view of the evolution of the British
monarchy. Shows that the once-
powerful ruler has relinquished his
control of the government, and has
now become an important symbol of
unity to the people of the British
Commonwealth. Includes a biograp-
hical sketch of Elizabeth II and
explains the religious and civil
nature of the coronation ceremony.

THE CASE FOR THE UPPER CASE (Film-strip) Coca-Cola Co., 1952.

Made by Jam Handy Organization. 153 fr., color, 35 mm. and disc. Anso color. Based on characters created by Don Marquis. Summary: Archy, the cockroach addicted to lower-case letters, defines the term trade-mark and enlists the aid of his friend, the cat Mehitabel, in his effort to capitalize specific trade-marks. Explains how trade-marks are important to a free economy and a free press, presents a historical sketch illustrating the origin of trade-marks, shows how they may be legally protected, and demonstrates their usefulness to the consumer. © The Coca-Cola Co.; 11Nov52; JF2034.

FIGHTING CANCER (Filmstrip) Popular
Science Pub. Co., 1952. 47 fr.,
color, 35 mm. (Fighting disease)
Summary: Indicates that cancer is
abnormal, uncontrolled cell growth
which appears in animals, fish, and
plants as well as in humans; de-
scribes the changes which occur in
cancerous cells; shows that iso-
topes, X-ray, radium, and surgery
are used in cancer treatment; and
discusses the research which is
being conducted in an effort to dis-
cover additional drugs or chemicals
which can be used in the treatment
of cancer. Ansco color. © Popular

HOW CHEMICALS AND ANTI-BIOTICS FIGHT

DISEASE (Filmstrip) Popular Science

Pub. Co., 1952. 48 fr., color,

35 mm. (Fighting disease) Summary:

Explains how sulfa drugs and anti-

biotics such as penicillin, strepto-

mycin, aureomycin, and terramycin are

used in the treatment of germ dis-

eases. Discusses the results of re-

search in the anti-biotic field con-

ducted by Fleming, Waksman, Duggar,

and Burkhalter. Ansco color.

HOW WATER CONTROL IS BEING USED TO

PROMOTE GOVERNMENT OWNERSHIP OF

ELECTRIC POWER (Filmstrip) Middle

West Service Co., 1953. 59 fr.,

b&w, 35 mm. Summary: Describes

the methods that socialists have

employed to promote government-owned

electric power systems. Explains

that these systems were at first in-

cidental to large-scale government

flood control and irrigation pro-

jects, but that more recently the

socialists have achieved direct

government sponsorship of electric

power projects. Shows what the

American people can do to stop the

progress of socialism. Credits:

- MULTI-PURPOSE DAMS AND THEIR RELATION
TO THE ELECTRIC INDUSTRY (Filmstrip)
Middle West Service Co., 1953.
33 fr., b&w, 35 mm. Summary: Ex-
plains why the electric companies
are in favor of sound river develop-
ment, but are opposed to tax-free,
subsidized electric power. Shows
why hydroelectric systems whose
plants must obtain their water from
large multipurpose dams are often
much more costly than steam plants.
Advocates that the government should
not compete with private business
and that the American people should
persuade their government to support
sound policies of water and soil
conservation, flood control, and
river development. Credits: Au-
thors, Edwin Vennard, Robt M. Wins-

RIVER BANK. H3023. SEE Pissarro, Camille.

RIVER DEVELOPMENT AND FLOOD CONTROL

(Filmstrip) Middle West Service Co., 1953. 55 fr., b&w, 35 mm. Summary: Examines methods of flood prevention, including terracing, planting of deep-rooted crops, and simple flood control dams. Explains the features of large flood control dams, irrigation dams, power dams, and multipurpose dams. Point out that multipurpose power dams will often be regulated so that no storage space is left in the dam basin for use in time of flood, and recommends construction of upstream flood prevention measures rather than widespread construction of large downstream dams. THE SCHOOL AND THE COMMUNITY (Film-
strip) McGraw-Hill Book Co., 1952.
Produced by United Productions of
America. 37 fr., b&w, 35 mm.
(Public education series) Based on
the motion picture of the same title.
Correlated with the book Introduction
to American public education,
by Chris A. De Young. Summary: Ex-
plains a democratic working partner-
ship between school and community.
Emphasizes the importance of the
school's becoming a community center
where the citizens assist in develop-
ing a functional educational program.
Credits: Educational consultant,
Howard T. Batchelder. Appl. title:

Popular Science Pub. Co., 1953. 48 fr., color, 35 mm. Anso color. Summary: Captioned drawings and photographs are used in explaining the changing role and appearance of a typical American river from its geologic beginning to the present time. Shows how the Indians and colonists made use of the river, the role of the river in transportation and lumbering, and the need for dams, reforestation, and scientific farming in order to prevent floods. © Popular Science Pub. Co., inc.; 15Apr53; JP2046.

THE STORY OF THE AMERICAN INDIAN

(Filmstrip) Yale University Press Film Service, 1953. 40 fr., b&w, 35 mm. (The pageant of America filmstrips, no. 1) Summary: Describes the customs of several tribes which are representative of the five regional groups of early American Indians--Forest Indians, Plains Indians, southwest Indians, California inter-mountain Indians, and northwest coast Indians. Shows the differences and similarities of tribal customs, dwellings, the modes of dress, techniques of hunting and fishing, and methods of worship. Credits: Editor, Clyde M. Hill; associate editors, Ralph H. Gabriel, William H. Hartley, May Hall James. © Yale University Press Film Service, inc.; 24Apr53; JP2031.

A TALE OF TWO SEAMS (Filmstrip) Singer
Manufacturing Co., 1953. Produced
by Key Productions. 45 fr., b&w,
35 mm. Summary: Explains that in
order to stitch a perfect seam on a
sewing machine it is necessary to

practice frequently, to have good
posture, to select the correct needle
and thread for the fabric, and to
use properly adjusted equipment.

- WHAT ARE ELEMENTS AND COMPOUNDS? (Filmstrip) Popular Science Pub. Co., 1953. 52 fr., color, 35 mm. Anso color. Summary: Discusses the nature of elements, the formation of compounds, and the differences between mixtures and compounds. Experiments with iron, sulphur, sodium, and chlorine are used to show the structure of atoms and to demonstrate the role of electrons in the formation of compounds. Indicates how the spectroscopy and X-ray crystal study are used to determine the structure of elements. © Popular Science Pub. Co., Inc.; 14May53; JP2103.
- WHAT ART MEANS TO ME. K34762. SEE Judd, George Element.
- WHAT IS COLOR? (Filmstrip) Popular Science Pub. Co., 1953. 50 fr., color, 35 mm. Anso color. Summary: Presents Newton's analysis of sunlight into its component colors and explains that the different colors are caused by the chemical elements in the sun. Shows how the prism breaks up white light into the spectrum colors, and how it is used in identifying elements. Experiments with reflected and transmitted light demonstrate how color is perceived and transmitted, and how the primary colors of transmitted light are used in color television and in mixing colors for painting. Explains the nature and use of infrared and ultraviolet light. © Popular Science Pub. Co., Inc.; 14May53; JP2102.
- WHAT IS MAGNETISM (Filmstrip) Popular Science Pub. Co., 1953. 52 fr., color, 35 mm. Summary: Traces the development of knowledge about magnetism, and describes present-day uses of magnetic power to provide power and systems of communication. Includes a demonstration of experiments made by Hans Cersted in 1820 and by Sir William Gilbert, a 16th century physician. Anso color. © Popular Science Pub. Co., Inc.; 18Mar53; JP1942.

REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1955, any article of the following named classes of published works deposited for copyright between January 1, 1951, and January 1, 1952, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$1.00 per issue, \$2.00 per year.

PREFACE

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Each annual volume is subdivided to represent the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used in the registration numbers to distinguish the classes, and the prices of the semi-annual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for \$20 a year.

Each copyright registration listed in the *Catalog* is recorded in a main entry, which includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, the copyright date, the copyright registration number, etc.). Cross-references, and, in some cases, indexes, are provided.

The name of the copyright claimant in each entry is that given in the application for registration. Available information in the records of the Copyright Office relating to subsequent changes of ownership can be obtained upon request and upon payment to the Register of Copyrights of the fee

specified in the law for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of Title 17 of the *United States Code*, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) of the regulations of the Copyright Office, published in the Code of Federal Regulations, 1949 Edition, which provides for the deposit of identifying reproductions in lieu of the work itself. To distinguish foreign works, for which two copies have been deposited under section 215 of Title 17 of the *United States Code*, a zero immediately following the class symbol in the registration number has been used.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the *Register of Copyrights*.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should

be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

In the following table, the symbols listed represent the materials principally contained in each part; for other materials, including renewals (always designated by the symbol R), which may be included in a particular part and for a more complete statement of contents, the respective "How-to-Use" section should be consulted. In a registration number a zero immediately following the symbol, i. e., AF0, EF0, indicates that two copies of a foreign publication have been deposited with a catalog card and application for registration, under the provisions of section 215 of Title 17 of the *United States Code*.

HOW TO USE THE CATALOG OF COPYRIGHT ENTRIES, PARTS 7-11A

Works of Art, Reproductions of Works of Art, Scientific and Technical Drawings, Photographic Works, Prints, and Pictorial Illustrations (Parts 7-11A) list, in the first section, domestic and foreign works, in published or unpublished form, currently registered in classes G, H, I, J, and K, except for commercial prints and labels which are registered in Class K under the symbol KK and are listed in Part 11B. The second section is a list of renewal copyrights of works originally registered in the above classes, except for commercial prints and labels. The works listed include original paintings, drawings, designs for works of art; three-dimensional works of art; charts; architectural and engineering plans and mechanical drawings; anatomical models and other plastic works; photographic prints; filmstrips; slide films; stereoscopic and other transparencies; published reproductions of existing works of art in the same or a different medium; and published prints and pictorial illustrations, including picture postcards, greeting cards, cartoons, and prints used for calendars, posters, etc. In the third section are listed selected books in the fields of art and photography which were registered in Class A, and also listed in Part 1, *Books and Pamphlets*. These consist largely or primarily of illustrations, list or describe photographs or works of art (including those devoted to the works of individual artists and photographers), or are catalogs of exhibitions. Library of Congress printed cards are available for them. Orders for or inquiries regarding the cards should be addressed to the Card Division of the Library of Congress, Washington 25, D. C. Each registration is described in a main entry and cross-references are provided to facilitate its location. The items of information generally included in a main entry and the arrangement of the entries are described in the following paragraphs.

In each section the arrangements of the entries is alphabetical under the names or titles at the beginning of the main entries. In the first two sections, cross-reference entries beginning with other names or titles for which a searcher might look are interfiled

with the main entries; in each case, the cross-reference refers the searcher to the name or title under which the main entry can be found. There are no cross-references in the third section. Each main entry is usually listed under the name of the person or corporate body principally responsible for the content of the work (author, artist, draftsman, photographer, etc., or the name of the employer in the case of a work made for hire), but for some works, such as filmstrips, the item is listed under the title. In the first section the cross-references cover, in general, joint authors, producing and releasing agents, and other essential names included in the main entries, distinctive titles, subjects of portraits, cities, geographic areas, and other scenes represented in the entries when applicable. For filmstrips the cross-references cover in addition, the names of the authors and the titles of published literary works upon which the filmstrips are based or with which they are correlated. In the second section, the cross-references cover renewal claimants, joint authors, and titles. In both sections references are made from variant forms of the names used in the headings.

Each main entry for works currently registered, other than filmstrips, includes, in addition to the name or title used as the heading, the following information descriptive of the work, when available and applicable:

- 1) Title.
- 2) Series title, if it appears on the application preceding the title of the work.
- 3) Names of other persons associated with the creation of the work.
- 4) Description of the pictorial content of the work.
- 5) Name of the publisher if this is different from the name in the heading and from the name of the copyright claimant.
- 6) A brief description of the physical nature of the work.
- 7) Names of authors given in the application which do not appear elsewhere in the entry.

- 8) Name of the employer in case of a work made for hire, if so named in the application, together with the names of the employees.
- 9) Information contained in the application or copy which relates to the registration of an earlier version of the work.

For currently registered filmstrips, the main entry includes, in addition to the heading, the following information if available and applicable:

- 1) Production statement.
- 2) Physical description, including number of frames, width of film, etc.
- 3) Series title.
- 4) Author and title of the published literary work upon which the film is based or with which it is correlated.

In addition items 7 and 8 in the previous paragraph are given when applicable.

Information relating specifically to the claim of copyright is preceded by the copyright symbol © and includes the following:

- 1) A brief statement of the new matter on which copyright is claimed when this information is given in the application.
- 2) Name of the claimant.
- 3) For published works, date of publication as given in the application; for unpublished works, the day, month, and year on which the last of all the items required to complete registration (i. e., each of the following: copy, application, and fee) was received in the Copyright Office.

- 4) The phrase, "photo dep.," when photographs of three-dimensional works of art are accepted in lieu of copies.

- 5) Registration number.

An explanatory note is added to the main entry whenever it is necessary to indicate a variation in information which relates to the publication date or the name of the claimant as given in the application and the copy of the work.

For renewal copyrights, the main entry includes, in addition to the heading, the following information, if applicable:

- 1) Title.
- 2) Description of the pictorial content of the work, or, for filmstrips, the number of the frames and the name of the author, usually the producing company.

The information relating specifically to the copyright claim is preceded by the copyright symbol © and includes the following information:

- 1) Original copyright date.
- 2) Original copyright registration number
- 3) Renewal registration number.
- 4) Date of receipt of the renewal application.
- 5) Name of the renewal claimant, followed by an abbreviation in parentheses representing the claimant's statement of the basis of his renewal claim—e. g., John Doe (NK) indicates that renewal of copyright has been claimed by John Doe as the next of kin of the deceased author.

ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

Class I—Published drawings or plastic works of a scientific or technical character	334
Unpublished drawings or plastic works of a scientific or technical character	313
Class J—Published photographs	269
Unpublished photographs	186
Class K—Prints and pictorial illustrations	1,895
Total	4,813
Renewals: Class G	17
Class I	2
Class J	6
Class K	143
Total	168

The above figures represent the number of registrations for works of art, reproductions of works of art, scientific and technical drawings, photographic works, prints and pictorial illustrations for July–December 1953, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

WORKS OF ART, REPRODUCTIONS, SCIENTIFIC AND TECHNICAL DRAWINGS, PHOTOGRAPHIC WORKS, PRINTS

An alphabetical list of art works, scientific and technical drawings, photographic works, and prints and pictorial works registered during the period covered by this catalog, arranged under author (artist, draftsman, photographer, etc., or employer in case of a work made for hire) or, in the case of filmstrips, under title. Cross-references from names of copyright claimants, joint authors, distinctive titles, subjects of portraits, cities, geographic areas and other scenes represented in the entries, when applicable, are interfiled with main entries.
